PROFESSIONAL SUMMARY

Hello, I am Nathaniel! I'm a **driven** and **ambitious** software engineer with a strong passion for gaining new experiences and expanding my knowledge base. With a **diverse skill set**, I have sharpened my abilities through hands-on experience in creating and maintaining a fully-functional website for my family's business. Over the past four years, I have continued to build on this foundation, continually refining and tweaking the site as my skill set grows.

I have also been actively involved in developing several React Native apps with a focus on addressing the **unique needs** of various businesses. One of these apps is specifically designed to track worker on-the-clock hours and report them to a Business Administrator, while another aims to help small businesses expand their customer base and enhance their outreach.

As a **self-motivated** achiever, I am always seeking new challenges and opportunities to demonstrate my skills and make a meaningful impact. I am authorized to work in the US for any employer and am excited to bring my diversified skill set and **passion for success** to a new role.

EXPERIENCE

Prestigious Gaming on Wheels Plus - Game Coach

New York, NY • 09/2020 - Current

- Developed a fully functional ReactJS website that showcases offerings and package pricing to clients
- Integrated on-site e-invite creation
- Ensured the safety and enjoyment of children at birthday parties by proactively addressing issues and maintaining a calm atmosphere
- Improved communication between clients and team with a user-friendly contact form, resulting in increased satisfaction and retention

Mobu (Startup) - Full Stack Developer

New York, NY • 03/2022 - 02/2023

- Solely developed both iOS and Android apps through React Native
- Successfully linked frontend app to a Firebase backend
- Seamlessly integrated Cloud Storage for Images, Firestore for real-time database changes, and Firebase Authentication for secure user authentication management
- Utilized expertise in frontend and backend development to achieve a fully functional and user-friendly app
